corrugated carton box slotting machine

### Automatic Flexo Printing Slotting Machine

Gearbox 4 shafts automatic lead edge feeder.

Flexo printing cylinder and slotting shaft phases adjusted by servo motors.

Printing units are equipped pull rolls transfer for corrugated boards.

Six shafts slotting design, pre-creaser first, creaser second, slotter.

Mechanical mode speed compensation system from die cutting unit of machine.

PLC remote control system, can manager and check through internet.

9000 order memory system with computer operation system.

Model	PS-Y4-1224	PS-Y4-1228
Max machine speed	200pcs/min	180pcs/min
Max feeding size	2500*1180mm	2900*1180mm
Max skip feeding size	2500*1400mm	2900*1400mm
Min feeding size	700*350mm	700*350mm
Max printing size	2400*1150mm	2800*1150mm
Max die cutting size	2400*1150mm	2800*1150mm
Standard printing plate	7.2mm	7.2mm
Min slotting distance	260*75*260*75mm	260*75*260*75mm
Max slotting depth	300mm	300mm
Paper board thickness	1.5-12mm	1.5-12mm
Voltage supply	380V, 50HZ, 3Phase	380V, 50HZ, 3Phase

Model	PS-Y4-1628	PS-Y4-1632
Max machine speed	150pcs/min	140pcs/min
Max feeding size	2900*1580mm	3300*1580mm
Max skip feeding size	2900*1800mm	3300*1800mm
Min feeding size	700*420mm	800*420mm
